## EXPERIENCE

### Technical Team Member, TEDxTCET

June 2024 – August 2024 |

Contributed to the development of the official TEDxTCET website (tedxtcet.com). Led the design and implementation of key features to enhance user experience, including event schedules, speaker profiles, and multimedia content integration. Collaborated with team members to ensure smooth deployment and maintenance of the website, resulting in successful event execution.

### Technical Team Member, ACM TCET & TSDW

August 2024 – Present |

Played a key role in developing the ACM TCET official website and the Zephyr TechFest website, focusing on responsive design, user interface enhancements, and dynamic content management. Integrated interactive elements and streamlined navigation to improve user engagement and accessibility across various devices. Coordinated with cross-functional teams to ensure the alignment of technical requirements and project timelines.

## PROJECTS

### PORTFOLIO

Created a sleek and intuitive portfolio website showcasing skills in web design and development. Developed dynamic content to engage visitors, highlighting projects with impactful visuals and concise descriptions. Ensured a responsive interface for seamless viewing across various devices, optimizing user experience.

### HEALTH VAULT

Database administration and website design Built the logic for a streamlined medical-serving platform that scaled Auto QR code generation for all the medical records
